

Dear Friends of Coal -

Tell the world that you're a friend of coal by helping the Tennessee Mining Association kick-off the drive for the new specialized Tennessee "Friends of Coal" license plate. The coal-black plate will showcase your support of Tennessee's coal mining industry while also ensuring funds for the reclamation of abandoned mine lands throughout the state.

The Tennessee Mining Association, in conjunction with Friends of Coal Tennessee, has begun taking pre-orders for the specialized Friends of Coal plates. In order for the state to begin production, **we must pre-sell 1,000 license plates including collecting the \$35.00 application fee by June 30, 2011.** Once the Tennessee Mining Association collects \$35,000 and all the applicants' information, we will forward everything to the appropriate state department for processing. Upon the state's completion of the process, which can take three to six months, a letter will be mailed to you instructing you on how to redeem your specialized license plate.

Support America's energy future now by ordering a Friends of Coal license plate! All you have to do is send \$35.00 and a completed application (attached) to:

Friends of Coal Tennessee
% Tennessee Mining Association
P.O. Box 24333
Knoxville, Tennessee 37933

Questions about the plates can be directed to the Tennessee Mining Association at info@tnmining.com or 865-671-7733. Updates on the drive and an electronic version of the application can be found at www.tnmining.com. Order now and show everyone you're a Tennessee friend of coal!

Application for
Specialized Tennessee License Plate
